# INTERIOR PANELS

VIDI®board-PRO is a high-quality and affordable interior construction panel based on extruded polystyrene (XPS). This waterproof panel is suitable for any new construction or renovation project. The interior construction panel is the ideal substrate for all types of tiling, stucco and plastering, and is easy to use.

AVAILABLE IN VARIOUS SIZES AND BOARD THICKNESSES

## HIGHEST QUALITY

High-quality interior construction panel made of high-density XPS foam, finished with a reinforcement-fabric strengthened mortar coating. Extra hard, extra stable!

## BEST PRICE

The best price-quality ratio makes it the most economical choice for any processor!

## 100% WATERPROOF

The combination of the coating and the VIDI®fix sealant and adhesive ensures a 100% watertight finish.

## PRESSURE RESISTANT

Thanks to an integrated fabric, the surface forms a strong and pressure resistant bonding substrate for tiling.

## LIGHTWEIGHT

Sturdy, lightweight construction panel, easy to transport and process by one person.

CUSTOMIZATION ALSO POSSIBLE
